# Strategic Direction: SUSTAINABLE & INTEGRATED CREDIT UNION SYSTEM IN ASIA

# Our latest breaking news is ...

---

## Measuring Global Digitization

World Council will measure the digitization of credit unions in four key areas and report annually on the progress being made toward **Challenge 2025**.

### Digital Channels

Offering members core digital transaction services such as online and mobile banking, online payments and online loan processing.

### Digital Payments

Connecting your credit union to a shared payments system that allows for mobile payments and integrated with a national payments system.

### Data Analytics

Employing data analytics to determine additional service offerings to members, and helping to identify those that need financial literacy or counseling services.

### Cybersecurity

Implementation of a cybersecurity system that complies with national regulations to protect members' consumer data from digital attacks and intrusions.

# Current Situation

**Members' Resilience**

**Credit Unions' Resilience**

**Member Oriented Recovery**

**Sustained Cooperation**

**Technology**
